EXPERIENCE

CTO

Sep 2024 - Present

Kiwi Tech (Web & Mobile Development Agency), Dubai, UAE

- Full-stack development across backend, frontend, and DevOps. AI-powered feature development across products and platforms. Manage teams of freelancers, developers, designers, and 3D/animation creators. Collaborate on product direction and coordinate directly with clients.
- Languages: Typescript | Dart
- Frontend: Vue / Nuxt | Flutter | Pinia | Tailwind / CSS | Motion / GSAP | Three.js | Rive
- Backend: Node.js | Supabase | Firebase | Hono | Deno | Cloudflare | Railway | AWS | Postgres | MongoDB | Serverless | Edge
- AI: AI Infrastructure | RAG | Prompt Engineering | Computer Vision | Data Analysis | AI-Powered Features

Tech Lead

Mar 2023 - Sep 2024

SilverFern Digital (Web & Mobile Development Agency), Dubai, UAE

- Worked directly with the CTO to plan and lead development across diverse stacks, coordinate teams, collaborate with designers, support sales, and manage client requirements—covering the full spectrum of startup operations.
- Languages: Javascript / Typescript | Python | C#
- Frontend: React / Next | Vue | Tailwind | Zustand / Redux | Pinia | UI Libraries
- Backend: Microservice architecture | Node / Express | .NET | PM2 | Docker | CI/CD | Kafka | Kong | MySQL | MongoDB | AWS | Azure | Cloudflare | Vercel | Strapi CMS | 3rd-party integrations

Full Stack Developer

Nov 2021 - Feb 2023

Super Awesome (Digital Child Safety), London, UK

- Focused on backend development, continuous integration, high-throughput distributed systems, algorithm design, testing, and monitoring.
- Languages: Javascript / Typescript | Python
- Frontend: React | HTML | CSS
- Backend: Microservice architecture | Node / Express | Kafka | Postgres | Algorithm development | AWS | CI/CD | Grafana

Full Stack Developer

Jul 2019 - Oct 2021

Light & Wonder (iGaming), London, UK

- Worked across multiple clients and teams on large-scale systems, taking responsibility for development, testing, data migrations, feature changes, and enhancements.
- Languages: Javascript | Java | Tcl
- Frontend: React | Angular | HTML | CSS | Bootstrap | JQuery
- Backend: Microservice architecture | AWS | Docker | CI/CD | Informix | Cassandra | Jenkins | Grafana

Full Stack Developer

Jul 2018 - Jun 2019

UCAS (Education), London, UK

- Website debugging, content management, UI changes, and other BAU activities.
- Languages: Javascript | PHP
- Frontend: HTML | CSS | JQuery
- Backend: Monolithic Architecture | Apache Server | MySQL

SKILLS
